FY27 Emergency Evacuation Procedures Test
Instructor: Marcus Cox

1. **All designated emergency exits, including side windows, rear doors, and roof hatches, should be checked every day during a pre-trip inspection.**
   A. True
   B. False

2. **It is recommended that all vehicles are equipped with a seat belt cutter. Where on the vehicle should the seat belt cutter be located?**
   A. In the driver's compartment
   B. Velcro to the dash of the vehicle
   C. Within reach of the operator in his or her normal position
   D. All the above

3. **Which of these items is not required to always be on your vehicle?**
   A. Fire Extinguisher
   B. First Aid Kit
   C. Triangles
   D. Bloodborne Pathogens Kit / Universal Precautions Kit

4. **Which of these situations <u>WOULD NOT</u> require evacuation?**
   A. Vehicular rollover
   B. Fire or smoke conditions
   C. Flat tire
   D. Vehicle immersion or submersion in water

5. **If the engine compartment of a vehicle is on fire, the first thing you should do is get out of the vehicle, open the hood, and extinguish the fire as quickly as possible.**
   A. True
   B. False

6. **If a smoke or fire condition is present or imminent, you should always:**
   A. Remain in the vehicle and wait for help to arrive
   B. Evacuate your passengers first to ensure their safety
   C. Contact dispatch to let them know that they need to contact the fire department
   D. None of the above

7. **If no imminent danger is present, the safest place for the passengers is _____.**
   A. A safe distance away from the vehicle
   B. Inside a building
   C. To remain on the vehicle
   D. None of the above

8. **If a weather event, such as a tornado, requires you to evacuate your passengers from the vehicle, where is the safest place to evacuate to?**
   A. Into a ditch or ravine
   B. Beneath an underpass or bridge
   C. Into a sturdy structure or building
   D. A & C

9. **Passengers who use mobility devices should be evacuated first.**
   A. True
   B. False

10. **An operator should always evacuate every passenger on board their vehicle during an emergency, even if it means attempting a maneuver that they do not have confidence that they can perform.**
   A. True
   B. False

11. **It may be necessary to physically remove a person from a vehicle in order to save his or her life.**
   A. True
   B. False

12. **The better the description relayed to the dispatcher, the quicker and better the response will be from emergency preparedness forces.**
   A. True
   B. False

13. **When emergency responders arrive on-scene, you should:**
   A. Be cooperative
   B. Answer all their questions
   C. Provide them with all the information appropriate to facilitate evacuating any remaining passengers

D. All the above

14. **During an evacuation, which passengers should be evacuated first?**
    A. Visually impaired passengers
    B. Mobility impaired passengers
    C. Ambulatory passengers
    D. The order does not matter

15. **Which of the following <u>WOULD BE</u> cause for evacuation?**
    A. Vehicle rollover
    B. Fire or smoke conditions
    C. Submersion in water
    D. All the above

16. **If a vehicle becomes fully engulfed in smoke and there are still passengers on the bus, it is the operator's responsibility to go back on the vehicle to remove them.**
    A. True
    B. False

17. **The best exit to use during an evacuation is _____.**
    A. The closest exit
    B. The largest exit
    C. The exit that is closest to you that will remain open the longest
    D. Any of the above

18. **When assisting in an evacuation, always remember your own _____.**
    A. Family
    B. Control
    C. Passengers
    D. Strengths and limitations

19. **An operator/employee of a transit agency should be considerate of the language used at an accident scene and avoid phrases such as "I'm sorry" or "You will be okay" as both statements could potentially place the agency in jeopardy should legal action occur.**
    A. True
    B. False

20. **Since emergency evacuation events are so rare, periodic discussion and consideration about how to evacuate a vehicle will help you to be better prepared should an emergency occur.**

A. True
B. False
